

Quarantine. Should either participant test positive for this virus, it is better to self-quarantine within the household as opposed to vacating due to the concern of introducing any COVID-19 related infection outside this home. Your Housing Specialist will continually provide supportive services for both of you, and must be made notified immediately of any developing health concerns, generally and relating to COVID-19.

As of the date below, both participants have no COVID-19 health concerns.

DATED THIS _____ DAY OF _____, 2020.
